

Tuff Tank™

Tall Two Sided Portal w/ Bridge

Product Overview

This tall two sided Tuff Tank RFID Portal is built to last and provide the ultimate protection for all your RFID equipment used in the retail, manufacturing and distribution environments. Our patent pending designs give you the right choices for your applications based on the elements internally and externally at every location. The durability of the Tuff Tank Portal will assure you long-term usage and maximum protection. Available for interior and exterior use.

FEATURES	BENEFITS
Built With 20 Gauge Steel Framing	<ul style="list-style-type: none"> • Heavy duty makes it versatile for many applications • Circular base design is a deterrent for warehouse abuse from forklifts • Electrical cords easily secured in framing to protect and hide wires
Vertical Antenna Bar	<ul style="list-style-type: none"> • For optimum reads, the vertical bar allows the antenna to slide up and down to any position (optional top mounting available)
Versatile Reader Positioning	<ul style="list-style-type: none"> • Top and bottom mounting bars to meet different applications
Bridge Addition	<ul style="list-style-type: none"> • Two Sided Tuff Tank Portal Bridge allows for top mount antennas or caution light for extra coverage or security • Allows electrical cords to be easily fed through bridge providing greater protection and less wear on cords
Self Standing or Floor Mount	<ul style="list-style-type: none"> • The portal is heavy enough to stand freely for lower traffic applications and mobile usage or can easily be bolted into the floor for more secure applications
